

*Making sure all parts of
your care fit together.*

SafeMed Program Collaboration Agreement

The SafeMed Program is designed to help physicians better serve their patients with complex health needs and frequent hospitalizations. Our SafeMed Staff will work together with you for the benefit of your sickest patients.

SafeMed Staff will:

- Identify themselves as working with you whenever they encounter or enroll your patients in the SafeMed Program*
- Keep you or your staff informed about important changes in your patient's health status or medication changes*
- Schedule your patients to see you within 14 days post discharge*

We ask that you:

- Encourage eligible patients to participate in the SafeMed Program*
- See your SafeMed patients within 14 days following hospital discharge*
- Communicate with SafeMed Staff regularly to plan patient care, address medication problems, and respond to identified health care needs*
